

Have you ever heard about pre-order orders? Its is fantastic way to make your own profitable business.

A pre-order is an order placed for an item which has not yet been released. Pre-order incentive, also known as pre-order bonus, is a marketing tactic whereby a retailer, reseller of a product encourages buyers to reserve the product at the store prior to its release.

CoCo-Fashion add about 50 new styles each week (most of them - absolute newnesses). We can provide you excellent tools:

a) own account in online catalogue www.koreancatalogue.com (images without watermark, website without any links to main store www.coco-fashion.com, personalized prices -including your own margin)

b) online document where you can place your customers orders. It is kind of contact between us. You place orders, we send it out. We can ship directly to your customers but also we can ship all pre-order items to your address (then you minimalize shipping cost from us to your country but you need to share items by yourself)

It is good time to start your own business! Personalized online catalogue's account can be used as your site which is showed to your customers. Styles are automatically updated. If you have own online store, blog or facebook you can upload there images and product's descriptions - it is also very good way to find customers.

Our advantages:

- Good quality
- Reasonable prices
- Ready stocks
- No minimum order
- Cheap registered air mail + courier services
- No need to make pre-deposits
- Proper, honest refunds policy

Soon...

Many improvements for online catalogue, such as: shopping cart for your customers, up to 3 personalized subpages, e-mail notifications.

Join us, for free, try to make your business best. We would be happy to assist you. We are flexible and open-minded. Please feel free to contact us. Everything depends on you.
